

## Cupcake Hanger

To make each cupcake you need:-

- 4" by 4" (10cm by 10cm) wadding
- 4" by 3 ¼" (10cm by 8.5cm) bun case fabric
- 4" by 4" (10cm by 10cm) backing fabric
- 4" by 2 ¼" (10cm by 6cm) icing fabric
- 4" (10cm) rik-rak or ribbon
- 1 button

1. Fold and press a ¾" (2cm) seam in the bun case fabric to give you a piece of fabric 4" by 2 ½" (10cm by 6.5cm).
2. Assemble the quilt sandwich starting with the wadding first.
3. Fold the white backing piece in half to give a crease mark from top to bottom and then place the white backing piece on top of it.
4. Fold the rik-rak or ribbon in half and place it down the crease mark with the cut edges at the top.
5. Place the bun case fabric, right side down, wrong side facing you onto the sandwich. It should cover the bottom half of the quilt sandwich.
6. Place the white icing fabric onto the quilt sandwich lining up the top edges. If you want you can pin the layers together at this stage.
7. Place the template onto the sandwich and draw around it. I used a blue trick marker which washes away with water, you could use a pencil instead.
8. Sew all the way around the cupcake shape with a sewing machine.
9. Cut all around the cupcake shape leaving a narrow ¼" (0.5cm) seam.
10. Turn the cupcake inside out through the gap between the icing and bun case and press with an iron. You might need a blunt pencil to push out the corners.
11. Hand stitch quilting lines onto the bun case. I used 3 strands of dark grey embroidery cotton. You can either stitch just simple straight lines or add a curvy top.
12. Finally sew a button to make the cherry and hang from a 40cm wooden spoon.
